

Intake HP™

High Surfactant Modified Vegetable Oil Concentrate • Water Conditioner • Activator and Penetrant

General Use Information

Intake HP™ is a high-efficacy, multi-functional adjuvant designed to enhance herbicide performance against hard-to-control and late-season weeds. Its unique formulation contains modified soybean oil and a proprietary surfactant package to increase the penetration of herbicides, while allowing droplets to spread across the leaf surface. Intake HP™ also acts as a water conditioner to tie up antagonistic ions in your spray solution to maintain herbicide efficacy.

TECHNICAL INFORMATION (AdjuVIVE™)

Surfactant Content: 30%

Net Weight: 7.77 lbs/gal

Minimum Storage Temp: Intake HP™ is freeze/thaw stable but, recommend heated storage for immediate use in the Spring. If frozen, return to room temperature and agitate, recirculate, or shake before use.

Specific Gravity: 0.93

Tankmix Approved: Enlist One® and Enlist Duo®

Use Rate:

- Ground Application: 10-14 oz/acre
 - Aerial and Low Volume CDA Application: 6 to 8 fl oz per 1-5 gallons of spray solution per acre
- Buffering and pH Adjustment: For most applications, a use rate of 0.5 – 1.0% v/v will be sufficient. A jar test should be performed for specific tank mixes and water sources that will affect spray solution pH.

Note: Do not mix with oxidizing agents unless oxidizing agents are in solution.
